Professional Summary

A passionate and creative Frontend Developer with foundational experience in building dynamic, responsive, and user-friendly web applications. A critical thinker and quick learner dedicated to turning ideas into interactive digital experiences. Eager to apply strong skills in HTML, CSS, and JavaScript to solve real-world problems and contribute to a forward-thinking team while exploring an interest in UI/UX.

Skills

- **Frontend Development:** HTML, CSS, JavaScript
 - **Programming Languages:** Java, Python
 - **Key Strengths:** Responsive Design, Creative Problem-Solving, Growth Mindset
-

Projects

- **Ferris Wheel & Moon/Earth Animations:** Implemented complex animations using only HTML and CSS to create impressive visual effects.
 - **Responsive Layouts (Profile Card, Image Gallery):** Developed sleek, responsive components that adapt their layout for different screen sizes, utilizing CSS Grid and modern styling techniques.
 - **Interactive Elements (Weekend Plans, Contact Form):** Built functional components to demonstrate understanding of user input and data structuring.
 - **Data Presentation (Movie Collection, Recipe Page):** Created well-structured and stylish pages to display information clearly using tables and modern CSS.
-

Professional Experience

Web Developer (Personal Projects) | [Aug 2025] – Present

- Gained over 3 months of hands-on experience developing a variety of web projects from concept to completion.
 - Focused on writing clean, semantic code and implementing modern CSS for styling, layout, and complex animations.
 - Successfully built and deployed 10+ projects demonstrating a strong understanding of frontend fundamentals and responsive design principles.
-
